PEUGEOT

PARTNER

FUNCTIONALITY AND EFFICIENCY

Powered by a 1.6L diesel automatic transmission engine with 230Nm of torque and the 1.2L Petrol Turbo engine with 230Nm of torque. This model delivers exceptional efficiency with the lowest consumption and emission levels in its class.

It not only offers best-in-class fuel economy, but also the best payload capacity of 1,357 kg, along with added convenience features like cruise control and speed limiter.

The Partner is built to suit all trades with versatility and performance, available in both Panel Van and Combi variants with seating for up to 9 passengers.
